## Education

---

University of California, Santa Cruz - 3.97 GPA

Sept 2019 - present

- Sophomore, Computer Science major

University of California, Davis - 3.8 GPA

June - July 2017

- Took summer classes while in high school: Statistics 13 and PHE 044.

## Experience/Projects

---

[Formula Slug](#) - C++

- School club that builds an electric race car and competes in the SAE Collegiate Chapter.
- I contribute through software written in C++.

[Battleship](#) - Java / Swing

- Single player battleship game with randomly spawned ship locations.
- Goal is to sink all the ships in as few moves as possible.

[Tic Tac Toe with AI](#) - Python

- Single player tic tac toe game.
- Checks all possible moves recursively to determine where the best place to move is.

[Shortest Path Finder](#) - C / Breadth First Search

- Finds the shortest path between two vertices on an unweighted graph.
- Uses Breadth First Search on an adjacency list representation of a graph.

[Connected Component Finder](#) - C / Depth First Search

- Finds the strongly connected components an unweighted, directed graph.
- Uses Depth First Search on an adjacency list representation of a graph.

[My Portfolio Website](#) - HTML / CSS / Bootstrap

- My personal website where I feature some of my coding projects
